Portable Weighing

Porta-Tronic 800
Portable Scale

Portable Scales

Designed for portable weighing applications, the Porta-Tronic 800 provides easy mobility for use in multiple locations. The stainless steel weighing surface is a standard feature. Customers can choose either a powder coated carbon steel or a stainless steel base to provide the durability needed in light to heavy industrial environments.

The Porta-Tronic 800 was designed for mobile weighing in light to medium capacity applications. Smooth, portable operation maximizes efficiency when weighing in multiple areas. Numerous options provide flexibility for custom applications.
